

Data management

CDS 2022 BTS4SSP workshop

Rick Gilmore & Kasey Soska

2022-04-25 08:18:22

Acknowledgements

- Support from NICHD, NIH/OD, NIMH, & NIDA via R01HD094830-01; NSF via 2032713; the LEGO Foundation; & the Alfred P. Sloan Foundation
- Karen Adolph, Cathie Tamis-LeMonda, Orit Hertzberg, Tiger Teng

Overview

- A cautionary tale
- (Hyper)active Curation
- Lessons learned

A cautionary tale

(NYU Health Sciences Library, 2013)

(Hyper)active curation

Journal of eScience Librarianship

putting the pieces together: theory and practice

Since August 11, 2021

[\(Soska et al., 2021\)](#)

What is it?

- Embed data *curation* within data *collection* workflow
- Rigorous & thorough quality assurance (QA) during collection
- Curate data with specific sharing target in mind

Workflow

Collection

Coding (video annotation)

Quality assurance (video)

- “Heavy” vs. “light” QA
- Semi-automated QA reports from Databrary
 - https://github.com/PLAY-behaviorome/workflow/tree/master/session_qa_reports
 - Not public

Data export & cleaning (surveys)

- <https://github.com/PLAY-behaviorome/KoBoToolbox>
- Series of enumerated R Markdown documents
 - Reproducible
 - Documents gathering, cleaning steps

 01-download_from_KoBo.Rmd	Create step-by-step workflow with separate documents.	26 days ago

 06-make_aggregate_csv.html	Create step-by-step workflow with separate documents.	26 days ago

<https://github.com/PLAY-behaviorome/KoBoToolbox>

- Final CSV uploaded to Databrary
- ```
play_data <-
databraryapi::read_csv_data_as_df(session_id =
51539, asset_id = 366382)
```

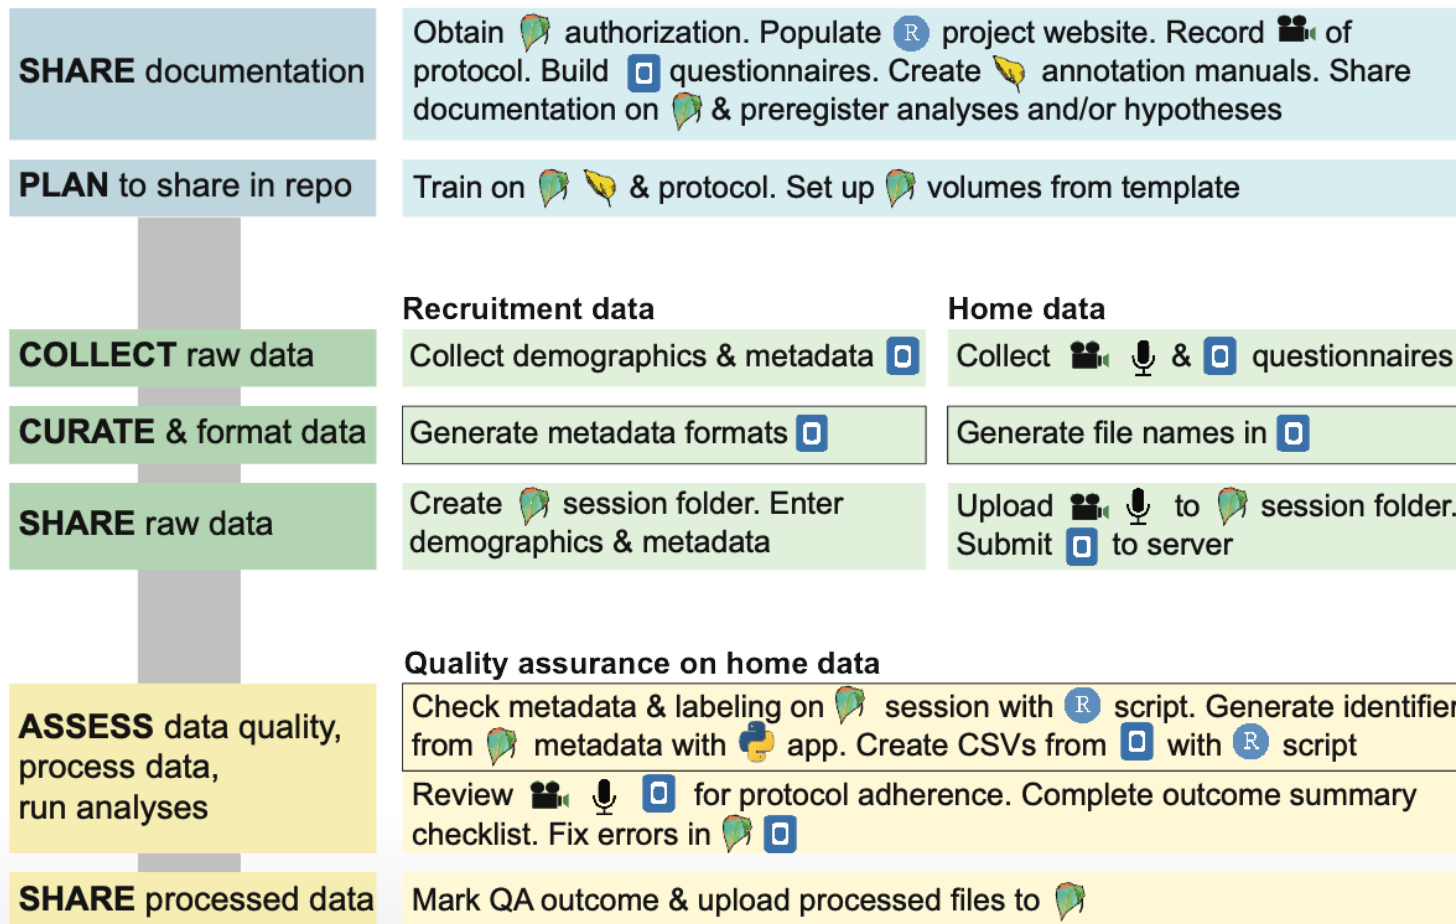

# Summarized

## Hyperactive curation

## PLAY path to share

## Annotation & transcription

## Interobserver reliability

# In-process

- Full protocol on <https://play-project.org>
- Considering migration of protocol to [bookdown](#)
- Individual-level files
  - Including CHAT export of transcripts
- Clean, aggregate MB-CDI data
- From data dictionaries to open schemata

Lessons learned

*"...psychologists tend to treat other peoples' theories like toothbrushes; no self-respecting individual wants to use anyone else's."*

(Mischel, 2009)

*"The toothbrush culture undermines the building of a genuinely cumulative science, encouraging more parallel play and solo game playing, rather than building on each other's directly relevant best work."*

(Mischel, 2009)

“...psychologists tend to treat other peoples’ theories  
data, data management practices, tasks, displays...like  
toothbrushes...”

*Cheeky open and reproducible developmental science  
advocates who want to create a more cumulative science*

# We don't talk about (you know)...

(DisneyMusicVEVO, 2021)

# Plan your work; work your plan

- You have to curate data for yourself, so...
- Clear to you == (often) clear to others
- Curate with specific target in mind

- Automate as much as possible
  - Script, use APIs
  - Exploit the web
  - Consistency is the ~~hobgoblin of little minds~~ key to successful automation!

- Test workflow at every step/look at data
- Expect to iterate
- Don't make the perfect the enemy of the good
- *Meaningful* data management plans increasingly required by funders
- Make data a first class product

# Come PLAY with us!

- Share best practices
- Talk about “you know”
- Let’s solve as-yet-unsolved problems...together
- No reinventing wheels

# Resources

This talk was produced on 2022-04-25 in [RStudio](https://www.rstudio.com/) using R Markdown and the ioslides framework. The code and materials used to generate the slides may be found at <https://github.com/PLAY-behaviorome/2022-04-21-team-sci-cds/>. Information about the R Session that produced the code is as follows:

```
R version 4.1.2 (2021-11-01)
Platform: x86_64-apple-darwin17.0 (64-bit)
Running under: macOS Monterey 12.3
##
Matrix products: default
LAPACK: /Library/Frameworks/R.framework/Versions/4.1/Resources/lib/libRlapack.dylib
##
locale:
[1] en_US.UTF-8/en_US.UTF-8/en_US.UTF-8/C/en_US.UTF-8/en_US.UTF-8
##
attached base packages:
[1] stats graphics grDevices utils datasets methods base
##
other attached packages:
